# **Project Descriptions**

Specific Location German Township Road 24 between Township Road F and US20A

Identify The Problem German Township is working on widening Road 24 in sections to accommodate the truck traffic. Widen the

road to 27' (24' striped with 1.5' paved shoulders)

Project Scope Road widening, widen shoulders, setback drainage, resurface

# German Township Board of Trustees June 14, 2021

The Trustees of German Township, Fulton County, Ohio met in regular session for conducting business of the township.

Present: Andy Brodbeck, Kenneth Leupp, Keith Roth

Guests: Josh King, Robert Apger, David Pugh, Kevin Eicher, Steve Lange

Kenneth called the meeting to order at 6:00 pm.

Steve Lange gave his zoning report. There is an issue in Burlington with a property that has no right of way and no access. Steve mentioned an easement could solve the issue and he will be following up on the issue.

Keith presented the minutes from the May 24, 2021 meeting. Andy made a motion to accept the minutes as presented. Kenneth seconded the motion. The motion passed with two yes votes and no negative votes.

Keith presented the bills for review (attachment 06-01-21). Andy made a motion to accept the bills for payment as presented. Kenneth seconded the motion. The motion passed with two yes votes and no negative votes.

Josh reported on maintenance. They looked at the tree in Pettisville behind Sundays Market, Josh mentioned he has two contractors getting a price to remove the tree. They finished mowing ditches, sprayed weeds, and did some more roadside work on 24. They also worked on several fire equipment issues. Neal Nofziger is a putting drive into a field and he wants to put a tile under the drive. Josh went and looked at the project and it was approved for Neal to do that. Josh will go back out and look at the project when completed.

# 16-21 RESOLUTION FOR AUTHORIZATION TO APPLY FOR ISSUE II FUNDS

A resolution authorizing Frank T. Onweller, Fulton County Engineer, and Kenneth Leupp, Trustee of German Township, to prepare and submit an application to participate in the Ohio Public Works Commission State Capital Improvement and/or Local Transportation Improvement Program(s) and to executive contracts as required,

WHEREAS, the State Capital Improvement Program and the Local Transportation Improvement Program both provide financial assistance to political subdivisions for capital improvements to public infrastructure, and

WHEREAS, German Township is planning to make capital improvements to the Road 24 (F to US20A), and

WHEREAS, the infrastructure improvement herein above described is considered to be a priority need for the community and is a qualified project under the OPWC programs,

NOW THERFORE, BE IT RESOLVED by German Township:

# German Township Board of Trustees June 14, 2021

Section 1: Kenneth Leupp, Trustee of German Township, is hereby authorized to apply to the OPWC for funds as described above.

Section 2: Kenneth Leupp, President of German Township, is further authorized to enter into any agreements as may be necessary and appropriate for obtaining this financial assistance.

Andy made a motion to approve the resolution. Kenneth seconded the motion. Roll call: Andy, yes; Kenneth, yes; Adopted this 14th day of June, 2021

# 17-21 RESOLUTION FOR ISSUE II FUNDS

RESOLUTION for German Township, Fulton County to apply for Issue II funds for the Road 24 Improvement Project, which includes Road 24 from Road F to US20A for \$692,000,

WHEREAS German Township is planning to make capital improvements to be constructed after July 1, 2022 or spring and summer of 2023,

WHEREAS the above described project is considered to be a priority need for the community,

THEREFORE BE IT RESOLVED BY German Township to request an OPWC grant of 47% and a 24% loan for a term of ten (10) years.

Andy made a motion to approve the resolution.

Kenneth seconded the motion.

Roll call: Andy, yes; Kenneth, yes; Adopted this 14th day of June, 2021

Andy made a motion to adjourn at 6:50 pm. Kenneth seconded the motion. The motion passed with two yes votes and no negative votes.

# German Township

Fulton County P.O. Box 68 Archbold, OH 43502

Trustees Andy Brodbeck – Kenneth Leupp – Jason Pursel Fiscal Officer Keith Röth 419-490-1173 Email <u>germantwpfo@rtecexpress.net</u>

June 25, 2021

I, Keith Roth, Fiscal Officer of German Township hereby certify that German Township will have \$204,500 in the Road and Bridge Fund, Gasoline Tax Fund, and the Road District Fund and that this amount will be used to pay the local share of the Resurfacing of County Road 24 from Road F to US20A when it is required.

I, Keith Roth, Fiscal Officer of German Township hereby certify that German Township will have the amount of \$162,500 in the Road and Bridge Fund, Gasoline Tax Fund, and the Road District Fund and that this amount will be used to repay the SCIP or RLP loan requested for the County Road 24 from Road F to US20A project over a 10 year term.

Keith Roth Fiscal Officer

# DISTRICT 5 CAPITAL IMPROVEMENT PROJECTS QUESTIONNAIRE ROUND 36

Name of Applicant: German Township	
Project Title: German Township Road 24 Resurfacing	

The following questions are to be answered for each application submitted for State Issue II SCIP, LTIP and Loan Projects. Please provide specific information using the best documentation available to you. Justification of your responses to these questions will be required if your project is selected for funding, so please provide correct and accurate responses. Villages and Townships under 5,000 in population should also complete the Small Government Criteria.

- 1. What percentage of the project in repair A= 100%, replacement B= \_\_%, expansion C= \_\_%, and new D= \_\_%? (Use dollar amounts of project to figure percentages and make sure the total equals one hundred(100) percent) A+B= 100 % C+D= \_\_% ORC Reference(s):164.06(B)(1); 164.14(E)(10)
  - Repair/Replacement = Repair or Replacement of public facilities owned by the government (any subdivision of the state).
  - New/Expansion = Replacement of privately owned wells, septic systems, private water or wastewater systems, etc.
- 2a. Existing Physical Condition of Infrastructure ORC Reference(s):164.06(B)(2);164.14(E)(9);164.14(E)(2);
  164.14(E)(8)

Points	Category	Description	Examples
10	Failing	Infrastructure has reached a point where it requires replacement, reconstruction or reconfiguration to fulfill its purpose	-Intersection Reconfiguration due to accident problem- Structural paving of 3.5" or greater of additional pavement - Pavement Widening to meet ODOT L&D Standards - Complete Pavement Reconstruction - Water or Sewer Line Replacement - Water or Sewer Plant Replacement - Widening graded shoulder width to ODOT L&D Standard -Complete Bridge or Culvert replacement-Replacement of a major component of a water and/or sewer treatment plant which would result in a failure in meeting WQ Standards
8	Poor	The condition is substandard and requires repair or restoration in order to return to the intended level of service and comply with current design standards. Infrastructure contains deficiency and is functioning at a diminished capacity.	-Multiple course of paving - Structural Culvert Lining - Bridge Deck Replacement - Replacement of a component such as a control mechanism, pumps, hydrants, valves, filters,

			etc of a water or sewer plant - Single course of paving with 25% base repair-Widening graded shoulder width to less than ODOT L&D Standard
6	Fading	The condition requires reconditioning to continue to function as originally intended.	-Single course of paving -Sewer Lining Projects -Water tower painting -Repair of a tank to maintain structural integrity in existing water and sewer systems-Widening aggregate berm on existing graded shoulder width
4	Fair	The condition is average, not good or poor. The infrastructure is still functioning as originally intended. Minor deficiencies exist requiring repair to continue to function as originally intended and/or to meet current design standards	
2	Good	The condition is safe and suitable to purpose. Infrastructure is functioning as originally intended, but requires minor repairs and/or upgrades to meet current design standards	
0	Excellent	The condition is new or requires no repair. Or, no supporting documentation has been submitted	

2b. Age of Infrastructure ORC Reference(s):164.06(B)(2)

Life	20	30	50
Project		Wastewater and Water	Bridge/Culvert, Sanitary
Туре	Road	Treatment	Sewer, Water Supply,
			Storm Water, Solid
			Waste
Points			-
0	0-4 Years	0-6 Years	0-10 Years
1	5-8 Years	7-12 Years	11-20 Years
2	9-12 Years	13-18 Years	21-30 Years
3	13-16 Years	19-24 Years	31-40 Years
4	17-20 Years	25-30 Years	41-50 Years
5	20+ Years	30+ Years	50+ Years

3. Health and Safety Rating: ORC Reference(s):164.06(B)(4),164.14(E)(1); 164.14(E)(10)

If the proposed project is not approved what category would best represent the impact on the general health and/or public safety?

# ROADS

**/** 

**Extremely Critical:** 

Resurfacing, Restoration, Rehabilitation and Reconstruction (4R) of a Major

Access Road.\*

Critical:

Resurfacing, Restoration and Rehabilitation (3R) of a Major Access Road.\*

Major:

Resurfacing, Restoration, Rehabilitation and Reconstruction (4R) of a Minor

Access Road.\*

Moderate:

Resurfacing, Restoration and Rehabilitation (3R) of a Minor Access Road.\*

Minimal:

Preventative Maintenance of a Major Access Road.

No Impact:

Preventative Maintenance of a Minor Access Road.

Projects that have a variety of work will be scored in the  $\underline{LOWEST}$  category of work contained in the Construction Estimate.

Road/Street Classifications:

ſ

Major Access Road:

Roads or streets that have a dual function of providing

access to adjacent properties and providing through or

connecting service between other roads.

Minor Access Road:

Roads or streets that primarily provide access to adjacent properties without through continuity, such as cul-de-sacs

or loop roads or streets.

Preventative Maintenance:

Non Structural Pavement work such as chip sealing, cape

sealing, micro-surfacing, crack sealing, etc.

\*(3R) Resurfacing, Restoration and Rehabilitation - Improvements to existing roadways, which have as their main purpose, the restoration of the physical features (pavement, curb, guardrail, etc.) without altering the original design elements. (Surface and Intermediate layer Mill and Fills, overlays with less than or equal to 3.5" of additional payement, etc....)

\*(4R) Resurfacing, Restoration, Rehabilitation and Reconstruction - Much like 3R, except that 4R allows for the complete reconstruction of the roadway and alteration of certain design elements (i.e., lane widths, shoulder width, SSD, overlays with greater than 3.5" of additional pavement. etc.).

# BRIDGES SUFFICIENCY RATING

Extremely Critical:

0-25, or a General Appraisal rating of 3 or less.

Critical:

27-50, or a General Appraisal rating of 4.

Major:

51-65 or a General Appraisal rating of 5 or 6.

Moderate:

66-80 or a General Appraisal rating of 7.

Minimal:

81-100 or a General Appraisal rating of more than 7.

No Impact:

Bridge on a new roadway.

# WASTEWATER TREATMENT PLANTS

Extremely Critical: Improvements required by the Environmental Protection Agency (EPA) in the form of a

consent decree, finding and orders or court order, and Health Department Construction

Ban.

Critical: Improvements required by the Environmental Protection Agency (EPA) in the form of

NPDES permit requirements or Notice of Violations.

Major: Replace deficient appurtenances. Update existing processes due to EPA

recommendations.

Moderate: Increase capacity to meet current needs or update processes to improve effluent quality.

Minimal: New/Expansion project to meet a specific development proposal.

No Impact: New/Expansion to meet future or projected needs.

# WATER TREATMENT PLANT

Extremely Critical: EPA orders in the form of a consent decree, findings and orders or court order,

Critical: Improvements to meet Environmental Protection Agency (EPA) Safe Drinking Water

Regulations and/or Notice of Violations.

Major: Replace deficient appurtenances. Update existing processes due to EPA

recommendations.

Moderate: Increase capacity to meet current needs or update processes to improve water quality.

Minimal: New/Expansion project to meet a specific development proposal.

No Impact: New/Expansion to meet future or projected needs.

<u>COMBINED SEWER SEPARATIONS</u> (May be construction of either new storm or sanitary sewer as long as the result is two separate sewer systems.)

Extremely Critical: EPA orders in the form of a consent decree, findings and orders or court order. Health Department Construction Ban.

Critical: Separate, due to chronic backup or flooding in basements.

Major: Separate, due to documented water quality impairment, or due to EPA recommendations.

Moderate: Separate, due to specific development proposal within or upstream of the combined system

area

Minimal: Separate, to conform to current design standards.

No Impact: No positive health effect.

# STORM SEWERS

Extremely Critical: Improvements ordered by the Environmental Protection Agency (EPA) in the form of a

consent decree, findings and orders or court order.

Critical:

Chronic flooding (structure damage) or improvements required by the Environmental

Protection Agency (EPA) in the form of NPDES permit requirements or Notice of

Violations.

Major:

Inadequate capacity (land damage).

Moderate:

Inadequate capacity with no associated damage.

Minimal:

New/Expansion to meet current needs.

No Impact:

New/Expansion to meet future or project needs.

# **CULVERTS**

**Extremely Critical:** 

Structurally deficient or functionally obsolete. Deterioration has already caused a critical

safety hazard to the public.

Critical:

Inadequate capacity with land damage and the existing or high probability of property

damage.

Major:

Inadequate capacity (land damage).

Moderate:

Inadequate capacity with no associated damage.

Minimal:

New/Expansion to meet current needs.

No Impact:

New/Expansion to meet future or projected needs.

# SANITARY SEWERS

**Extremely Critical:** 

EPA orders in the form of a consent decree, findings and orders or court order. Health

Department Construction Ban.

Critical:

Replace, due to chronic pipe failure, chronic backup or flooding in basements, sewer system overflows, and/or improvements required by the Environmental Protection Agency (EPA) in the form of NPDES permit requirements or Notice of Violations.

Major:

Replace, due to inadequate capacity or infiltration, or due to EPA recommendations.

Moderate:

Rehabilitate to increase capacity to meet current needs or to reduce inflow and

infiltration.

Minimal:

New/Expansion project to meet a specific development proposal.

No Impact:

New/Expansion to meet future or projected needs.

# SANITARY LIFT STATIONS AND FORCE MAINS

Extremely Critical:

Structurally deficient. Deterioration has already caused a safety/health hazard to the public, or; EPA orders in the form of a consent decree, findings and orders or

court order.

Critical:

Inadequate capacity with actual or a high probability of property damage; or improvements required by the Environmental Protection Agency (EPA) in the

form of NPDES permit requirements.

Major: EPA recommendations, or; reduces a probable health and/or safety problem.

Moderate: Rehabilitate to increase capacity to meet current needs.

Minimal: New/Expansion to meet a specific development proposal.

No Impact: New/Expansion to meet future or projected needs.

# WATER PUMP STATIONS

Extremely Critical: Structurally deficient. Deterioration has already caused a safety hazard to the

public, or, EPA orders in the form of a consent decree, findings and orders or

court order.

Critical: Inadequate capacity with the inability to maintain pressure required for fire flows.

Major: Replace due to inadequate capacity or EPA recommendations.

Moderate: Rehabilitate to increase capacity to meet current needs.

Minimal: New/Expansion to meet a specific development proposal.

No Impact: New/Expansion to meet future or projected needs.

# WATER LINES/WATER TOWERS

Extremely Critical: Replace to solve low potable water pressure or excessive incidents of main breaks

in project area.

Critical: Replacement/Rehabilitation due to structural deficiency such as excessive

corrosion and/or safety upgrades, etc.

Major: Replace undersized water mains as part of an overall upgrade process. Replace

water meters that have exceeded their useful life.

Moderate: Increase capacity to meet current needs. Spot repairs/recoating to restore

moderate corrosion of water components.

Minimal: New/Expansion project to meet a specific development proposal.

No Impact: New/Expansion to meet future or projected needs.

**OTHER** 

Extremely Critical: There is a present health and/or safety threat.

Critical: The project will provide immediate health and/or safety benefit.

Major: The project will reduce a probable health and/or safety problem.

	Minimal:	A possible future health and/or safety problem mitigation.					
	No Impact:	No health and/or safety effect.					
	NOTE:	Combined projects that can be rated in more than one subset may be rated in the other category at the discretion of the District 5 Executive Committee. In general, the majority of the cost or scope of the project shall determine the category under which the project will be scored.					
	(Submittals	without supporting documentation will receive 0 Points for this question.)

б.	categories be request equa point penalty	nt of SCIP and Loan Funding Requested- An Applicant can request a grant per the elow for points as indicated on the Priority Rating Sheet. If the Applicant is including a load to, but not exceeding 50% of the OPWC funding amounts listed below, there will be now. If loan funds requested are more than 50%, points as listed in the Priority Rating Sheet ORC Reference(s):164.14(E)(10);164.06(B)(5)	an				
	_ 	_ \$500,001 or More _ \$400,001-\$500,000 _ \$325,001-\$400,000 _ \$275,001-\$325,000					

The project will delay a health and/or safety problem.

Moderate:

	\$175,001-\$275,000 \$175,000 or Less
	There are times when the District spends all of the grant money and has loan money remaining. When this happens, the district makes a loan offer in the amount of the requested grant to the communities that were not funded. The offers are made in the order of scoring. We need to know if you are not successful in obtaining grant dollars for your project if you would be interested in loan money:
	YES X NO (This will only be considered if you are not funded with grant money and there is remaining loan money.) Please note: if you answer "no" you will not be contacted, only if you answer "yes" will an offer be made in the event that there is loan money remaining.
7.	If the proposed project is funded, will its completion directly result in the creation of permanent full-
	time equivalent (FTE) jobs (FTE jobs shall be defined as 36 hours/week)? Yes No X If yes, how
	many jobs within eighteen months? Will the completed project retain jobs that would otherwise be
	permanently lost? Yes No If yes, how many jobs will be created/retrained within 18
	months following the completion of the improvements?
	ORC Reference(s): 164.14(E)(3);164.14(E)(10)
	(Supporting documentation in the form of letter from affected industrial or commercial enterprises that
	specify full time equivlent jobs that will be retained or created directly by the installation or
	improvement of Public infrastructure. Additional items such as; 1) newspaper articles or other media
	news accounts, 2) public meeting minutes, and/or 3) a letter from the County Economic Development
	Director or State of Ohio Economic Development Professional that alludes to the requirement for the
	infrastructure improvement to support the business. Submittals without supporting documentation will
	receive 0 points for this question.)
8.	What is the total number of existing users that will directly benefit from the proposed project if
	completed? 1,901 (Use households served, traffic counts, etc. and explain the basis by which you
	arrived at your number.) ORC Reference 164.14(E)(7); 164.06(B)(10)

12.	County Subcommittee Priority Points=
	(25-20-15 Points for each of the SCIP and LTIP Project Categories)
13.	DISCRETIONARY POINTS (BY DISTRICT COMMITTEE ONLY)
13a.	A District Discretionary Point may be awarded to projects that demonstrate significant Area-wide, County, or Community Impact. (Include documentation to support the claim of significance)  (Maximum of 1 Point at the discretion of the District Executive Committee)  ORC Reference 164.14(E)(7)
13b.	A District Discretionary Point may be awarded to projects that demonstrate that the entity has maximized local financial resources including assessments. Provide a Fund Status Report and/or the water and sanitary waste utility rate structures are at least 2.5% of area median household income for combined systems and 1.5% of the area median household income for water and sanitary only systems. Please provide rate ordinances for water and sanitary sewer to be considered for discretionary points. (Maximum of 1 Point at the discretion of the District 5 Executive Committee)ORC Reference 164.06(B)(3)
14.	Grand Total of Points
15.	Is subdivision's population less than 5,000 Yes ✓ No If yes, continue. You may want to design your project per Small Government Project Evaluation Criteria, released for the current OPWC Round to assist in evaluating your project for potential Small Government Funding. The Small Government Criteria is available on the OPWC website at
•	//www.pwc.ohio.gov/Portals/0/Data/SmallGovernment%20Round%2036%20Methodology.pdf?ver=2019 7-071749-143

# 16. OHIO PUBLIC WORKS COMMISSION SMALL GOVERNMENT PROGRAM GUIDELINES

All projects that are sponsored by a subdivision with a population of 5,000 or less, and not earning enough points for District Funding from SCIP or LTIP Funds, are then rated using the Small Government Program Rating Criteria for the corresponding funding round. In order to be rated the entity must submit the Small Government Suppliment and their required budgets with their application. Only infrastructure that is village- or township- owned is eligible for assistance. The following policies have been adopted by the Small Government Commission:

• District Integrating Committees may submit up to seven (7) applications for consideration by the

Commission. All 7 must be ranked, however, only the top five (5) will be scored. The remaining two (2) will be held as contingency projects should an application be withdrawn.

- Grants are limited to \$500,000. Any assistance above that amount must be in the form of a loan.
- Grants for new or expanded infrastructure cannot exceed 50% of the project estimate.
- The Commission may deny funding for water and sewer systems that are deemed to be more cost-effective if regionalized.
- •If a water or sewer project is determined to be affordable, the project will be offered a loan rather than a grant. Pay special attention to the Water & Wastewater Affordability Supplemental and the Small Government Water & Wastewater Affordability Calculation Worksheet. Both are available on the Small Government Program Tab at https://www.pwc.ohio.gov/Programs/Infrastructure-Programs/Small-Government
- Should there be more projects that meet the "annual score" than there is funding, the tie breaker is those projects which scored highest under Health & Safety, with the second tie breaker being Condition. If multiple projects have equivalent Health & Safety and Condition scores they are arranged according to the amount of assistance from low to high. Once the funded projects are announced, "contingency protects" may be funded from project under-runs by continuing down the approved project list.
- Supplemental assistance is not provided to projects previously funded by the Commission.
- •Applicants have 30 days from receipt of application by OPWC without exception to provide additional documentation to make the application more competitive under the Small Government criteria. Applications will be scored after the 30-day period has expired. The applicants for each District's two (2) contingency projects will have the same 30-day period to submit supplemental information but these applications will not be scored unless necessary to do so. It is each applicant's responsibility for determining the need for supplemental material. The applicant will not be asked for or notified of missing information unless the Commission has changed the project type and it affects the documentation required. Important information may include, but is not limited to: age of infrastructure, traffic counts or utility users, median income information, user rates ordinances, and the Auditor's Certificate of Estimated Revenues or documentation from the Auditor of State that subdivision is in a state of fiscal emergency.

If you desire to have your Round 36 project considered for Small Government Funding please download the Small Government Evaluation Criteria applicable to Round 36 by accessing the OPWC Website at

https://www.pwc.ohio.gov/Portals/0/Data/SmallGovernment%20Round%2036%20Methodology.pdf?
ver=2019-08-07-071749-143. Please follow the Small Government Evaluation Criteria and include supporting documentation to receive points. Specifically, include the Auditor's Certification of funds for your entity and documentation supporting the age of the infrastructure.

Please complete the Small Government Evaluation Criteria and attach all required supporting documentation and attach it to the District 5 Questionnaire for Round 36.
